The endings **-ion** and **-ian** often have **t**, **c**, **ss** or **s** before them and the whole ending is added to the root word.

music + **cian** = musician

-tion is the ending when the root word ends in **t** or **te**. Notice that the **e** is dropped from the root word.

-cian is the ending when the root word ends in **c** or **cs**.

-ssion is used if the root word ends in **ss** (express – expression) or **mit** (permit – permission).

-sion is used if the root word ends in **d** or **se** (extend – extension, tense – tension), but be careful of exceptions such as attend – attention.
