Thursday 6th December 2018

Dear Parents and Carers of Year 6,

Air-mazing Journeys

We are lucky enough to have been given the opportunity to work with 'Bike-It' Lucy and her Sustrans team on the exciting new Sussex air quality project this year, 'AIR-MAZING JOURNEYS'!

This will be a series of about six sessions throughout the year, which focus on air quality management. There will be fun, hands on activities to raise awareness of air pollution to the children. They will investigate the two main pollutants, map cleaner air walking and cycling routes, and look for signs of air pollution in our local area.

On Monday 10th December, Bike-It Lucy will be working with Year 6 in the morning to assess their bike riding levels on the school playground. This is because part of the project later on in the year will involve us going on a class bike ride to explore air pollution further. It is likely that this will take us up to the Wild Park/Stamper Park areas of Brighton (but this will be confirmed nearer the time.)

Therefore, on Monday morning, if your child has a working bike and a helmet, we are asking if they can bring them into school for this assessment. We do have a supply of bikes and helmets at the school that the children can use if this proves to be tricky on Monday morning. Bike-It Lucy will only be taking out small groups at a time, so it should be easy to manage. If the weather is horrendous, we will possibly have to postpone it, but we probably won't know until the morning!

If you have any questions, please come and see me.

Thank you for your continued support,

Ms Soar
