

Dear parents and carers of our wonderful children,

These books have been put together to help children to understand a little more about the #blacklivesmatter movement and also to highlight books that will help more children to see themselves or others reflected in what they read.

All of the recommendations have been compiled into one list, including biographies, non-fiction, books that open conversations about racism, and books that represent BAME main characters.

Visit this link [www.booksfortopics.com/black-lives-matter](http://www.booksfortopics.com/black-lives-matter) to find out more about the individual books from the picture list below. There are some fabulous books in this selection, so it is well worth visiting this website.
