

Circle Book Instructions:

These would look effective for nearly any topic!

1. Complete 6 circles on your chosen topic. (This works best if it is a range of pictures and writing throughout. Lots of colour looks good!)

2. Once you have your 6 circles, you need to put it together by folding each circle in half.

TOP TIP: Make sure the top of each circle is **at the top** when you fold!

3. Stick half a circle, to the back of half a circle. Then, continue one by one until you reach the last half. Then stick it together so it becomes a full sphere!

4. Now (if you want!) you can thread string through the middle and hang from your display!
